CREATE A WELCOMING SPACE

Ambience creation – turning any application into a warm and inviting environment for guests clients and home owners has become one of the key features that businesses look for in a connected lighting package. Now all this and more is available in one affordable turnkey solution – WiZ Pro.

Transform your own lighting into connected fixtures with WiZ Pro, drivers and bridge boxes or choose between a wide range of lamps to market under your own brand. Opt for reliable everyday connectivity that caters to the needs of all stakeholders with the WiZ platform.

Other important connected light features:

- Easy local and remote control of your lights
- Various light scenes to fit your application
